Starters

suitable for: DAF, Ford, Iveco, MAN, Mercedes, Renault, Scania, Volvo

DT Spare Parts ensures the right start to the new year

The motor needs to be started, but everything stays still and the wheels are not moving. From this point on, every minute of downtime costs a lot of money and this situation must be rectified as quickly as possible. If the starter is the cause of the problem, DT Spare Parts is the right choice. The right spare part ensures that the vehicle will soon be on the road again.

The correct installation plays of course an important part. In their video, the Parts Specialists Kevin and Lars provide helpful hints and tips on the subject of starter. With its wide range of products, DT Spare Parts always offers the right solution – including starters suitable for vehicle models from DAF, Ford, Iveco, MAN, Mercedes, Renault, Scania and Volvo. The product brand DT Spare Parts also offers individual spare parts alongside various starters. These in-

clude, for example, solenoid switches, pinions, carbon brushes and repair kits. Over 200 products in this category can be found in the Diesel Technic Partner Portal under the heading “Electrical equipment”.
